“ You're the best dad a child could ask for. You actually listened when we (my bros & I) had a concern & you gave us good advices. You played games with us & tricks on us, lol. You said I should not have crushes, I should only have pen-pals. You always let us know how proud you were when we accomplished a set goal. I'm missing our conversations on our walk to the corner store & you trying to teach me how to dance even while you're at work on a video call. I appreciate that you called me your Look-alike & your Me-one & that I called you dad. I love you always & forever, 💕💕💕 Me-one
